- Advanced support of the HFS+ and NTFS file system features
- Fast and transparent access to any NTFS partition under Mac OS X 10.6

DOWNLOAD

If you are looking for an easy way to exchange your data between Mac OS X and Windows OS - Paragon NTFS for Mac OS X Snow Leopard is an irreplaceable solution! Based on the full version of Paragon NTFS for Mac OS X, the driver enables to provide fast and transparent access to NTFS partitions as Mac OS X-native, thus achieving an unprecedented high level of performance. Mac OS X apps can process such partitions without any restrictions – browse contents, read and modify files, copy and create new files and folders, etc.
